

# ProSUM Information Network 2<sup>nd</sup> Annual Event

18<sup>th</sup> October 2016

ProSUM Information Network

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 641999.

# 1 Welcome

---

Sarah Downes

# Objectives for today

- Bring you up to date with the results of the project
- Showcase the ProSUM classification system as a way to harmonise data
- Get feedback on what you want to get out of ProSUM and the services and presentation of data
- Increase your positive interaction with ProSUM

# Agenda

---

- 1 Welcome
- 2 Harmonising data the ProSUM way
- 3 Producing best available data
- 4 Break out sessions
- 5 EU raw materials policy perspective on data needs
- 6 Industry perspectives
- 7 Getting value from ProSUM
- 8 Developing ProSUM
- 9 A practical forward look

# An EU Secondary Raw Materials Inventory

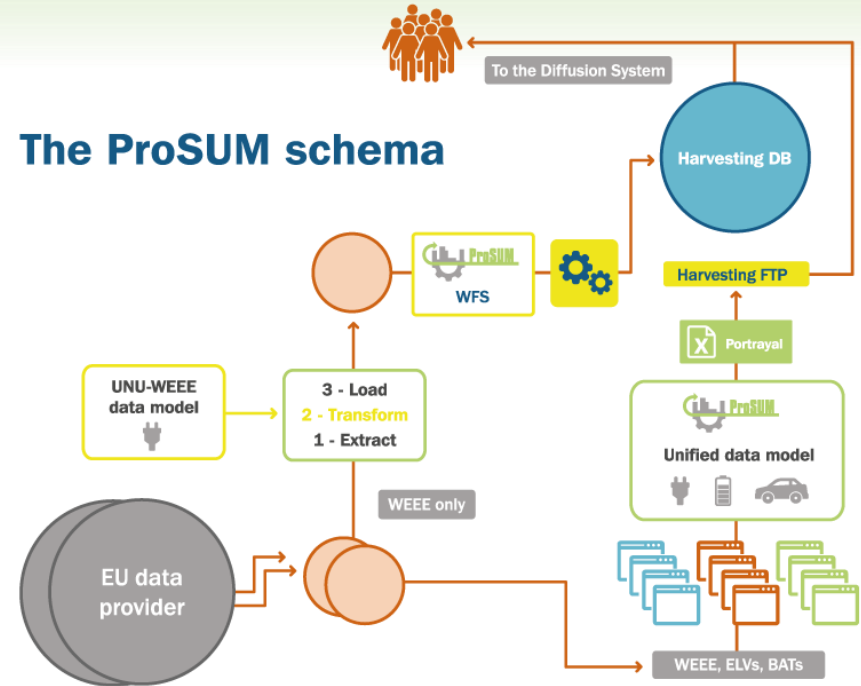

- An inventory of CRMs to improve the knowledge base
  - WEEE
  - Batteries
  - ELVs
  - Mining wastes
- Interoperable
- Available data
- New data classification system
- Updating protocols

# The EU Urban Mine Knowledge Data Platform

- User friendly portal
- Single inventory
- Linked with raw material minerals data
- INSPIRE compliant

## The ProSUM schema

# Prospecting Secondary raw materials in the Urban mine and Mining wastes

## Data Search

Search into the EU-UMKDP (Urban Mine Database and Knowledge Documents) to find the best data

## Map Viewer

View the data inside the EU-UMKDP and combine them with other data to create decision support maps

## Urban Mine Yearbook

View data for secondary raw materials

## LATEST NEWS

[All the news](#)

### EU-UMKDP presentation @ PROSUM Meeting in Uppsala

The PROSUM Meeting will be held in Uppsala at the end of January and the EU-UMKDP will be presented for the first time.

January 24, 2016

### EU-UMKDP alpha version Grand Opening

The EU-UMKDP alpha version has done its Grand Opening today

January 22, 2016

## About PROSUM

The ProSUM project will deliver the First Urban Mine Knowledge Data Platform, a centralised database of all available data and information on arisings, stocks, flows and treatment of waste electrical and electronic equipment (WEEE), end-of-life vehicles (ELVs), batteries and mining wastes.

### Horizon 2020

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement N°641999
